MARKET **micro** lighting

Up, Down, All Around

manufacturer Lambert & Fils.

product Beaubien.

standout A highly adaptable light fixture shines wherever needed.

If multiplicity is a virtue, Samuel Lambert has it in spades. He cites a dizzying list of inspirations for his latest light fixture: Japanese screens, industrial austerity, Memphis audacity. Functionality is similarly threefold. Able to stand on floors, hang from ceilings, or attach to walls, the frame is steel and aluminum powder-coated matte black and accented

with brass connectors and socket covers. It measures 17 by 60 inches. lambertetfils.com.
